

## Appendix D – quantity of relevant product

1 What type of relevant product are you reporting the quantity of?

--

2 For the 2010/11 financial year what was the quantity of relevant product referable to SITE?\*

	tonnes <input type="checkbox"/>	<b>(SP<sub>2010/11</sub>)</b>
	kilolitres <input type="checkbox"/>	

\* If relevant product relates to multiple sites in activity group, please calculate quantity [SP<sub>2010/11</sub>] using the formula:  $PT \times \frac{ES}{ET}$

3 Is quantity [SP<sub>2010/11</sub>] of relevant product referable to SITE in accordance with the conditions of regulation 22B?

Yes <input type="checkbox"/>	No <input type="checkbox"/>
------------------------------	-----------------------------

Please answer question 4 only if the relevant product is required to be of saleable quality under Division 3 of the relevant activity definition in Schedule 6 of the Regulations.

4 In relation to quantity [SP<sub>2010/11</sub>]:

- i) Was it produced to a level that would ordinarily be considered by participants in the relevant market to have a commercial value as the output of a process carried on as part of EITE ACTIVITY?
- ii) Does it include any quantity of sub-standard product that was discarded?
- iii) Does it include any quantity of product that has already been of saleable quality?
- iv) Does it include any quantity of product that was scrapped or lost before being packaged as a product of saleable quality?

Yes <input type="checkbox"/>	No <input type="checkbox"/>
Yes <input type="checkbox"/>	No <input type="checkbox"/>
Yes <input type="checkbox"/>	No <input type="checkbox"/>
Yes <input type="checkbox"/>	No <input type="checkbox"/>

5 Please explain the basis on which quantity [SP<sub>2010/11</sub>] of relevant product was calculated, including with reference to how it complies with any required material properties or specifications under Schedule 6 of the Regulations:

--

6 Please explain how quantity [SP<sub>2010/11</sub>] of relevant product was measured:

--

7 What was the quantity of relevant product referable to SITE for the 2009/10 financial year (assessed in the 2011 application)?

	tonnes <input type="checkbox"/>	<b>(SP<sub>2009/10</sub>)</b>
	kilolitres <input type="checkbox"/>	

8 Please calculate the quantity ASP for 2012 based on the method of regulation 22ZB:

SP <sub>2010/11</sub>	EASP <sub>2011/12</sub>	SP <sub>2010/11</sub>	SP <sub>2009/10</sub>	EASP <sub>2010/11</sub>	ASP
+	+	(	-	-	)
					=
					tonnes <input type="checkbox"/>
					kilolitres <input type="checkbox"/>

### Explanation of calculation

- SP<sub>2010/11</sub> = the quantity of relevant product produced in the 2010/11 financial year (from question 24)
- EASP<sub>2011/12</sub> = the quantity of new or expected additional production (from Appendix B or C if applicable)
- SP<sub>2009/10</sub> = the quantity of relevant product produced in the 2009/10 financial year (from question 29)
- EASP<sub>2010/11</sub> = the quantity of new or expected additional production for the 2010/11 financial year as assessed in the 2011 PEC application (if applicable)
- Note that (SP<sub>2010/11</sub> - SP<sub>2009/10</sub> - EASP<sub>2010/11</sub>) = ST<sub>2011/12</sub> = the adjustment for the previous financial year's production; however if no PEC was issued for EITE ACTIVITY and SITE in 2011, then ST<sub>2011/12</sub> = 0
